

VASUDEV PATIL

React.js Developer and Software Tester

mrvasudevpatil18@gmail.com | Surat, Gujarat, India | LinkedIn | GitHub | portfolio

PROFESSIONAL SUMMARY

BCA Graduate with hands-on experience in React.js front-end development and software testing. Skilled in building responsive, component-based web applications using React.js, JavaScript, HTML5, and CSS3. Proficient in manual testing including test case writing, functional testing, regression testing, and bug reporting using JIRA and Postman. Currently learning automation testing with Selenium WebDriver and Cypress. Seeking a full-time or internship role as a React.js Developer or Software Tester to contribute to quality-driven software teams.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux

Database: MongoDB, SQL, MySQL, Firebase

Other Tools: Git, GitHub, REST APIs, VS Code, Vercel

Testing Types: Functional, Regression, Smoke, UI/UX, API, Cross-Browser Testing

Testing Tools: Postman, JIRA, TestRail, Bugzilla, Chrome DevTools

Automation: Selenium WebDriver, Cypress, Jest, React Testing Library, TestNG

PROJECTS

Personal Portfolio Website

HTML5, CSS3, JavaScript

[Live Demo](#) | [GitHub](#)

- Designed and developed a fully responsive personal portfolio website from scratch using HTML5, CSS3, and vanilla JavaScript without any framework.
- Implemented smooth scroll animations, mobile hamburger navigation, cursor glow effect, and a dynamic skills section with categorized tech stack display.
- Deployed on GitHub Pages with custom favicon, SEO meta tags, and optimized performance for all screen sizes.

Interview Platform

React.js, Node.js, Express, MongoDB

[Live Demo](#) | [GitHub](#)

- Built a full-stack platform for conducting and managing technical interviews with real-time features using React.js on the frontend and Node.js with Express on the backend.
- Implemented JWT-based user authentication, interview scheduling, and live code collaboration with MongoDB as the primary database.
- Deployed the frontend on Vercel with environment-based API configuration and responsive UI built using React component architecture and hooks.

Jewellery Shop Management System

React.js, Node.js, Express, MongoDB

[GitHub](#)

- Developed a full-stack inventory and billing management system for jewellery shops with modules for product catalog, order processing, and customer records.
- Built a responsive React.js UI with role-based access control, integrated REST APIs for all CRUD operations, and used MongoDB for flexible data storage.
- Implemented real-time stock updates, invoice generation, and search and filter functionality across product and customer modules.

OpenCart Manual Test Suite

Manual Testing, JIRA, Postman, TestRail

[GitHub](#)

- Designed and executed 100+ detailed test cases for the OpenCart e-commerce platform covering user registration, login, product search, cart management, checkout, and payment flows.
- Identified, documented, and tracked defects using JIRA with clear steps to reproduce, severity levels, and screenshots for each reported bug.
- Performed API endpoint validation using Postman for authentication and order management APIs, and managed test cycles in TestRail.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 - 2026

Surat, Gujarat, India
