SUMMARY

Motivated 3rd-year BCA student from Surat, Gujarat, specializing in full-stack web development with the MERN stack. Experienced in building responsive React frontends, RESTful APIs with Node.js & Express, and MongoDB databases. Passionate about turning ideas into real, working products. Actively seeking software development roles and internships.

PROJECTS

Interview Platform

Live Demo

GitHub

MERN Stack

Full Stack

- Built a full-stack platform for conducting and managing technical interviews with real-time features.
- Deployed on Vercel with Node.js/Express backend, MongoDB database, and user authentication.
- Implemented interview scheduling, candidate management, and a live coding environment.
- Designed a responsive React UI with role-based dashboards for interviewers and candidates.

Jewellery Shop Management System

GitHub

MERN Stack · In Progress

Full Stack

- Developing a full-stack inventory & billing system for jewellery shops.
- Features include product management, order tracking, and customer records using MERN stack.
- Built invoice generation and stock alert features to streamline shop operations.
- Implemented secure admin authentication and a clean dashboard UI with React.

Responsive Portfolio Website

Live Demo

GitHub

HTML · CSS · JS

Frontend

- Designed and built a fully responsive personal portfolio with smooth scroll animations.
- Used Intersection Observer API for fade-in effects; deployed on GitHub Pages.
- Implemented active nav highlighting, skill progress bars, and a copy-to-clipboard email feature.
- Optimized for SEO with meta tags, a custom SVG favicon, and secure external link attributes.
